

## **300.2 Administrative Organizational Structure**

### **Policy**

The Board expects that Division staff will function within an organizational structure that is designed to deliver the most effective educational programs and services to students. The Board further expects that individuals will utilize the channels of communication consistent with policy 1003.1 Channels of Communication to address concerns, and that administrative personnel will facilitate access to the appropriate level or person within the organization.

### **Regulations**

1. Subject to Division policy, the Superintendent is responsible to design the organizational structure for the conduct of Division affairs.

The Board delegates to the Superintendent the authority to develop the procedures necessary to implement this policy.
